Bengaluru

SUMMARY

WordPress Custom Theme Developer with 2+ years of experience specializing in component-based theme development, ACF-driven content management, and scalable website architecture. Developed and contributed to 25+ corporate and business websites using custom WordPress themes, Custom Post Types, WP_Query, and modern frontend development practices. Skilled in transforming Figma designs into responsive, SEO-friendly, and high-performance web experiences with clean and maintainable code.

EDUCATION

B. Sc Computer Science.

The American College, Madurai
June 2019 – April 2022

FRONTEND & UI

- HTML5, CSS3, JavaScript (ES6+)
- React.js, Next.js
- Responsive Design, Bootstrap
- Figma to Pixel-Perfect UI
- UI Animations (GSAP, CSS)

BACKEND & API

- Headless WordPress
- REST API Integration
- ACF, Custom Post Types, WP_Query
- Dynamic Content Management

PROJECTS

ACF Workflow Component Generator

- Built an ACF component generation tool to automate repetitive development tasks and standardize project architecture.
- Improved development workflow efficiency through reusable and scalable component scaffolding.

ACF Layout Preview

- Built a workflow enhancement plugin for ACF Flexible Content, enabling visual layout previews within the WordPress admin panel.

PROFESSIONAL EXPERIENCE

Web Developer

Supercode Design (Bengaluru) | March 2024 – Dec 2025

- Developed and maintained custom WordPress themes for B2B websites using Advanced Custom Fields (ACF), delivering responsive, SEO-friendly, and scalable web solutions.
- Built headless CMS applications using WordPress as the backend and Next.js/React as the frontend, integrating dynamic content through REST APIs.
- Implemented smooth, interactive user experiences using GSAP and ScrollTrigger, creating engaging animations and dynamic UI interactions across web applications.
- Implemented immersive 3D web experiences using Three.js, enhancing website interactivity and visual storytelling.

Web Developer

Honeycomb – Design And Digital Agency (Bengaluru) |
Jan 2026 – Present

- Developed custom WordPress themes using a component-based architecture with reusable ACF-driven modules and standardized development workflows.
- Created Custom Post Types, Taxonomies, and Advanced Custom Fields to build flexible and scalable content management solutions.
- Implemented dynamic content rendering using WP_Query, custom templates, and WordPress theme development best practices.
- Delivered responsive, SEO-friendly websites from Figma designs while maintaining performance, accessibility, and cross-browser compatibility.

Web Designer Intern

Belef Technologies (Madurai) | Nov 2023 – Feb 2024
